## Kindertons Implement Growth New Staff at all 7 Sites

Nationwide vehicle accident management provider Kindertons have this month announced further expansion at all seven sites round England. The expansion has come in the format of taking on extra staff, providing multiple jobs for a number of different roles.

At this current time of apparent recession and economic downturn, it's a refreshing change to see companies expanding and creating extra jobs. Kindertons Head Office in Crewe, Cheshire has seen 7 new staff taking positions in Debt Recovery, Human Resources and Training Team; this takes the total workforce at Kindertons House to over 120.

Further to this Head Office expansion, with the growing demand for replacement vehicles nationwide, Daniel Athorn, Transport Manager has made 30 Driver jobs available across the six vehicle depots situated in Leeds, London, Winsford, Athertstone, Chichester and Bristol. Kindertons have these vehicle depots strategically placed around the country to allow efficient vehicle drop off times to any client, anywhere within a short space of time.

Mathew Scott, Marketing Executive, of Kindertons added "At this current time it's great for us to be able to expand and create new jobs across the organisation, not only at Head Office in Crewe but across all sites. Our projected growth is still on course for this year and we are always looking to strengthen. Expanding in all areas of the company from drivers to Human Resources staff really shows how integral each member of the organisation is and how key they are to the overall success of Kindertons."
