New Vehicle Depot Launch Immanent Kindertons open sixth nationwide depot

Kindertons Ltd, a top provider of vehicle accident management and credit hire solutions nationwide, has this month opened a new vehicle depot and office on the South Coast of England in Chichester.

The new vehicle depot will provide the unique transport service to clients and partners, this unique service offers all vehicle transport when involved in a vehicle accident, dropping off the replacement vehicle with the client and then transporting their damaged vehicle to the vehicle repairer, further to this also offering recovery services.

A decision was made to re-establish a vehicle depot in Chichester due to heavy demand and increasing volumes in the area, Kindertons are continuing to offer their Credit Repair service, despite some competitors now stopping this service, this advantage has meant significant growth for the organisation. The Chichester site is added to the already established Leeds, Winsford, Atherstone, Bristol and London depots, giving Kindertons efficient nationwide coverage.

Mathew Scott, Marketing Executive for Kindertons, stated "Expanding in this current climate is a great achievement for us, by launching the new vehicle depot we now have extremely efficient delivery times of vehicles to clients and partners alike in that area. With our fleet of vehicles now growing over 1400 we can cater for any clients vehicle needs, and coinciding this with the six depots we now have means we can offer this fleet nationally".
